

SENSATIONAL SUIT FOR ALIENATION IS FILED IN BRACKEN

Bracken County Tenant Sues Landlord for Large Sum Alleging Alienation of Affections.

The Augusta Chronicle says: Attorney Hargett, representing William Conley, of Foster, has filed suit against James Utter, also of Foster, for \$10,000 damages, alleging that Mr. Utter had alienated the affections of his wife, Mrs. Bertha Conley.

In his petition, Mr. Conley alleged that he was entitled to \$10,000 damages because Mr. Utter had "alienated his wife's affections and for criminal conversation."

Mr. Conley also alleged that in 1920 he was a tenant on the Utter farm, and that during that year Mr. Utter boarded at his home during the summer; that he won the affections of his wife by taking her on automobile rides as well as buggy rides, that he gave her money and other presents, and that he is still carrying on said relations.

Mr. Conley further alleges that Mr. Utter has disposed of his land and other property with the idea in view of preventing him from collecting judgment should one be obtained.

The filing of this suit caused a sensation in the lower end of the county where all of the parties are well known. Mr. Utter is one of the leading farmers of the Foster vicinity and is considered well to do. He is married and has two children.

Mr. and Mrs. Conley have been married since 1908 and have five children. Mrs. Conley being about 35 years old.

Mr. Conley did not file suit for divorce, but this may follow later.

It is quite likely that this case will be called for trial at the June term of the Bracken circuit court at Brooksville.

The building will cost approximately \$25,000, the greater part of which has already been subscribed by the members of the congregation.

The new building will be two stories and will be built of brick and concrete. The first floor of the addition will be a large gymnasium 37x58 feet for the use of the young people of the congregation. CAPT. WILLIAMSON WAS PROBABLY OLDEST RIVERMAN

Master of ill-fated Kanawha Who Died in Cincinnati Saturday Had Been on River More than 64 Years.

The death in Cincinnati last Saturday of Captain Edward S. Williamson, who was master of the ill-fated Kanawha which sank near Maysville several years ago, has brought forth many stories of the old Captain in river newspapers.

Captain Williamson had been in the river service more than 64 years, 57 of which he was licensed pilot, and he was reputed to have been the oldest pilot on the Ohio River. His death marked the passing of one of the best liked navigators on the Ohio River, as he had a host of friends from Pittsburgh to Louisville.

For several years he had charge of the C. & O. ferry at Portsmouth and for many years was master of various steamers which operated between Pittsburgh and Cincinnati and of late years he ran on boats plying between Cincinnati and Louisville. It is estimated that he traveled more than three million miles.

GEO. W. BAIN TO BE ORATOR AT ANNUAL OLD SETTLERS MEET

Plans Made for Old Settlers' Reunion at Ruggles Campgrounds for Independence Day—Tollesboro Band to Play.

Arrangements for the annual reunion of the Old Settlers of Mason, Lewis and Fleming counties at the famous old Ruggles Campgrounds have been completed and indications are that this year's reunion will be the best held in many years.

Colonel George W. Bain, of Lexington, Ky., one of America's greatest platform orators, has been procured for the chief address. Colonel Bain will deliver his famous lecture, "If I Had Life to Live Over" and this subject will be especially interesting to the old settlers. Colonel Bain is probably the oldest platform orator actively engaged in lecture work today and despite his advanced age he traveled over 8,000 miles last season and did not miss a single engagement. He has repeated his lectures many times by 18½ states upon special request. He has lectured at Ocean Grove, N. J., 36 times and has delivered 16 lectures in Chickering Hall, New York City.

Besides this great lecture, there will be plenty of other attractions and the Fourth of July will be one big day at Ruggles. Music for the day will be furnished by the Tollesboro Band.

All defendants were released last night under bonds, which have guaranteed their appearance at the trial. Judge Peck provided that bonds of \$5,000 be furnished today by Remus and Harry Brown and \$3,000 for each of the remaining defendants.

FAMOUS SINGER HERE WITH GREAT FULLER JAZZ BAND

America's Foremost Singer of "Blue" Songs Will Be Heard Here With Fuller's Orchestra Friday.

When jazz music hit the United States it brought with it the peculiar strains of what is now called "blue" song numbers. Many of the bands that specialized in this sort of music made a feature of this melodious composition. It brought to the fore many young women whose voices were peculiarly adapted for this sort of song interpretation.

Foremost among the artists who have mastered this rather difficult melodic compositions of the negro "blue" songs is Miss Vi Shaffer who is the soloist with the famous Earl Fuller "The Man From Rectors" orchestra who is to play a one day's engagement at the Maysville Opera House on the afternoon and evening of Friday, May 26th.

Miss Shaffer has been hailed by critics as one of the greatest and foremost interpreters of "blue" songs in the United States today. A girl of magnetic personality and with a voice that thrills her audiences she has become a sensation wherever she has appeared.

Mr. Fuller appears in person at each performance of his famous jazz band.

PRESIDENT WRITES ON SUCCESS OF EMPLOYMENT EFFORTS

President Harding in Letter to Secretary Hoover Expresses Appreciation of Conference's Actions.

The White House, Washington, May 22, 1922.

My dear Mr. Secretary: Now that the revival of employment through the country—except for the strikes—has so great improved our situation that our anxieties in this particular are largely removed, I wish to extend my gratitude to every one of

the great body of our citizens who gave such efficient service in the organizations set up and coordinated under the Unemployment Conference of last autumn. The conference members and its standing committees deserve great credit for the successful inauguration and stimulation of the great simultaneous movement in the community, and its continuing organization, which has so greatly succeeded in the mitigation of what otherwise would have been great sufferings.

We have passed the winter of the greatest unemployment in the history of our country. Through the fine coordination and co-operation among federal and state officials, mayors and their committees of employers, relief organizations and citizens, we have come through with much less suffering than in previous years, when unemployment was very much less. So much has this been the case that except for the intensification of public works by the federal, state and municipal governments, the demand for aid to the unemployed from the federal treasury disappeared in the country. Only two or three of our larger cities failed to secure co-operation to the best advantage.

For this inspiration, organization and coordination of the community, and for the forces making for common action, the Unemployment Conference and its Standing Committees deserve great credit for a work quietly and efficiently carried out.

In this note of appreciation I wish to include the Secretary of Labor, and Colonel Arthur Woods, the director of the work. Yours faithfully,

WARREN G. HARDING.

Hon. Herbert Hoover, Secretary of Commerce, Washington, D. C.

SEASONAL TIPS FOR GARDENERS.

Insects destructive to gardens may be divided into two groups—those that destroy the plants by biting and chewing and those that suck the sap or juices of the plants. Effective control of any insect depends upon determining to which group it belongs and they applying the proper poison. Biting and chewing insects are controlled by use of stomach poisons such as arsenate of lead and Paris green. Sucking insects are controlled by tobacco poisons, kerosene emulsion and Bordeaux mixture.

Late carrots are planted about June 1, the seed being sown thinly in a very shallow furrow. A few radish seeds sown along with the carrots help to mark the row. Ox Heart and Chateaux are good late varieties that mature in from 75 to 110 days.

Spraying tomato plants with Bordeaux mixture about June 1 helps to control leaf spot and early blight. If the leaves become spotted and yellow, the spraying should be repeated at intervals of about ten days to two weeks.

Plant lice may cause serious damage on early peas and beans unless the plants are watched closely for the presence of these insects on the under side of the leaves. They are controlled by spraying with arsenate of lead.

Painting all sash that has been used to cover hot beds and cold frames and storing it away in a sheltered place before June 1 helps to prolong its usefulness, according to

WOMEN'S WOES

Maysville Women Are Finding Relief At Last.

It does seem that women have more than a fair share of the aches and pains that afflict humanity; they must "keep up," must attend to duties in spite of constantly aching backs, or headaches, dizzy spells, bearing-down pains; they must stoop over, when to stoop means torture. They must walk and bend and work with racking pains and many aches from kidney flits. Keeping the kidneys well has spared thousands of women much misery. Read of a remedy for kidneys only that is endorsed by people you know. Mrs. E. L. Cullen, 322 West Second street, Maysville, says: "Three years ago I had an attack of kidney trouble and my back ached continually. I had no ambition to do my housework and everything seemed a drag to me while going about it. I had blinding, dizzy spells and my head ached all the time. My kidneys were not acting regularly and in other ways showed signs of disorder. Doan's Kidney Pills were recommended to me and I sent to Wood & Son's drug store and got a box. After using them I got over the trouble entirely and have never since been bothered. I willingly recommend this remedy."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Cullen had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

FARM AND HOME NEWS FROM OVER KENTUCKY.

Members of the farmers' organization in Crittenden county are planning to pool their 1922 crop of wool, according to County Agent J. R. Spencer. More than 5,000 pounds will be centralized at some point in the county about June 1.

Taylor county farmers are showing a lively interest in soybeans, County Agent J. L. Miller says. In a recent co-operative order for soybean and cowpea seed, which was handled by a Taylor county merchant, the total order for soybean seed was five times as large as that for cowpeas.

Striking points in connection with sheep breeding were pointed out to more than 200 farmers who recently gathered on the farm of S. K. Warren in Warren county to study the methods which he uses, County Agent W. H. Rogers reports. Farmers from adjoining counties as well as those from Warren county displayed keen interest in the six pens of sheep which were displayed to show the methods used in breeding up a flock. Talks also were made by Mr. Warren and other prominent sheepmen and breeders.

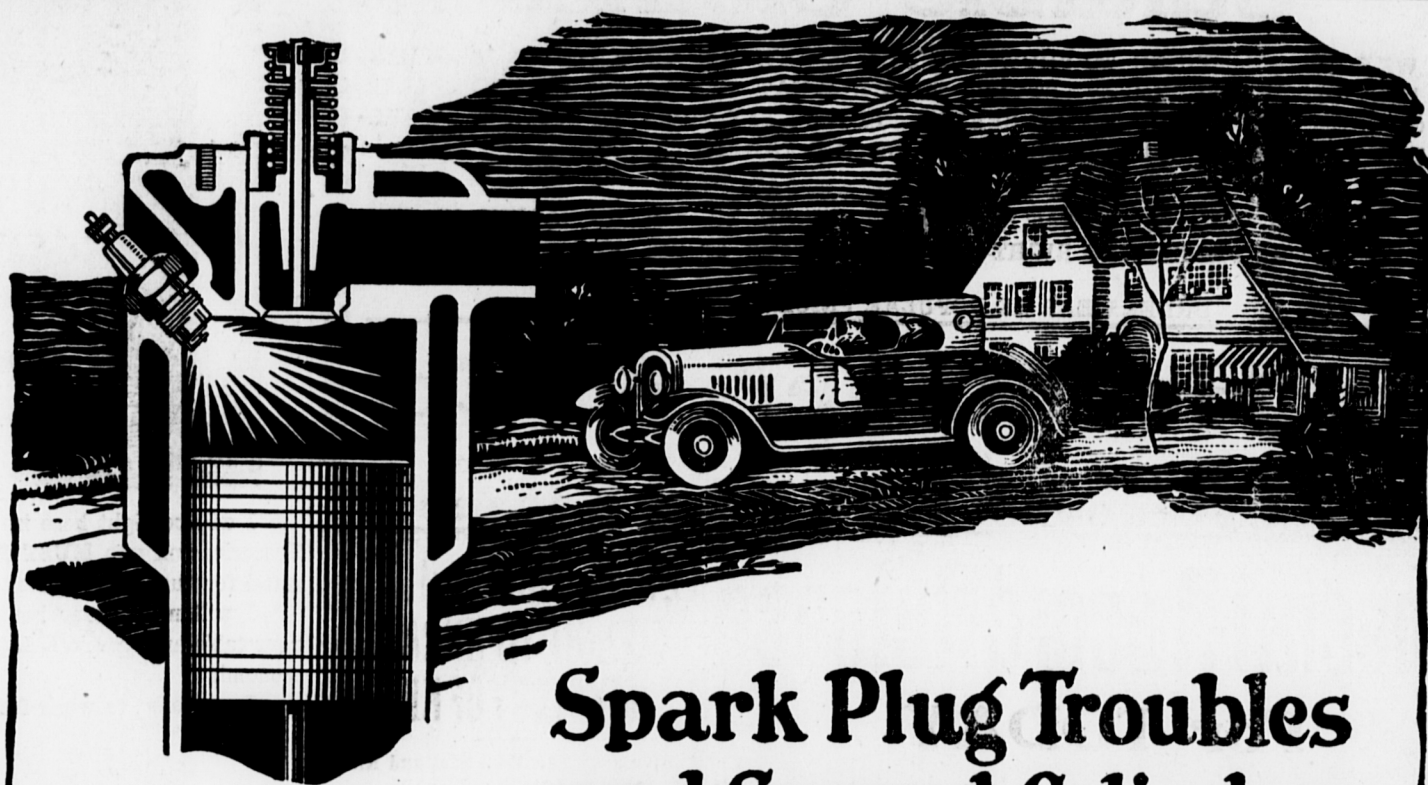

Five demonstrations are under way on as many Calloway county farms to determine if spraying with oil is an effective means of killing wild onions, County Agent J. B. Gardner reports.

SUCCEEDS WHERE DOCTORS FAIL

Lydia E. Pinkham's Vegetable Compound Often Does That.—Read Mrs. Miner's Testimony

Churubusco, N. Y.—"I was under the doctor's care for over five years for backache and had no relief from his medicine. One day a neighbor told me about your Vegetable Compound and I took it. It helped me so much that I wish to advise all women to try Lydia E. Pinkham's Vegetable Compound for female troubles and backache. It is a great help in carrying a child, as I have noticed a difference when I didn't take it. I thank you for this medicine and if I ever come to this point again I do not want to be without the Vegetable Compound. I give you permission to publish this letter so that all women can take my advice."—Mrs. FRED MINER, Box 102, Churubusco, N. Y.

It's the same story over again. Women suffer from ailments for years. They try doctors and different medicines, but feel no better. Finally they take Lydia E. Pinkham's Vegetable Compound and you can see its value in the case of Mrs. Miner. That's the truth of the matter. If you are suffering from any of the troubles women have, you ought to try this medicine. It can be taken in safety by young or old, as it contains no harmful drugs.

KENTUCKY WOOL IN DEMAND ON TWO DIFFERENT POINTS.

Lexington, Ky. — Kentucky wool is liked by wool dealers and manufacturers because of its light shrinkage and freedom from dirt and chaff, according to J. J. Horlacher, in charge of sheep work at the College of Agriculture. The majority of the state's wool crop, which totals more than two and one-half million pounds, is graded as quarter-blood and three-eighths blood, he said.

"The common mountain sheep produce very coarse, light fleeces grading as quarter-blood, low quarter-blood and common. Last year, in some instances, this low quarter-blood and common wool sold for only two-thirds as much as a pound as the quarter-blood and three-eighths blood.

"The two latter grades are produced by the Hampshire, Shropshire, Oxford Cheviot and Southdown purebreds and grades. A purebred ram of one of these breeds when bred to a common ewe usually will improve the fleece of the offspring sufficiently to raise it from low quarter to quarter-blood thereby increasing its value one-third to one-half on the basis of 1921 prices."

MANY APPLICATIONS FOR DUST-EXPLOSION EXHIBIT.

As a result of the exhibit illustrating the prevention of dust explosions, shown by the United States Department of Agriculture at the meeting of the National Fire Protection Association, at Atlantic City, May 8 to 11, other requests for its use have been received from various sources. Secretary Wallace has approved a request received from the Pennsylvania Indus-

trial Board for its use at the ninth annual convention of the Governmental Labor Officials of the United States and Canada, to be held at Harrisburg, May 22 to 26. It will also be used at the Mass Convention of Millers to be held under the auspices of the Millers' National Federation at Kansas City, Mo., May 31 to June 2.

The exhibit is available for the use of associations or similar organiza-

tions interested in the prevention of losses from dust explosions or fires. Requests should be sent to the Office of Exhibits, United States Department of Agriculture, Washington, D. C.

PADUCAH GIRLS MUST WHISPER BRIDGE BETS.

Paducah. — Society girls may have to do their auction bridge betting on the sly here. At a meeting of city commissioners, Commissioner H. A. Pulliam demanded that the police enforce the gaming ordinance against society girls who bet on card games. His de-

mand was based on fair play, he said, in that he did not believe in enforcing the law on professional gamblers only.

QUEER MAN HIDES IN DAY. FORAGES AT NIGHT.

Vanceburg, Ky. — The Garrison community is excited over the action of a stranger who keeps concealing in the woods in day but milks cows and prowls about homes at night. He has twice taken food from the summer kitchen of one farmer, and in another yard was seen late at night picking up magazines that had been thrown out. His identity and his object are as mysterious as his actions.

LETTER WRITER IS SOUGHT TO UNRAVEL MYSTERY OF KILLING

Millionaire's Son Who Shot and Killed Naval Man Remains Silent Except To State That He Feared Blackmailers.

White Plains, N. Y., May 25. — Search for an anonymous letter writer, who claims to hold the secret of Walter S. Ward's fear of blackmailers and the killing of Clarence Peters, was the feature of White Plains' killing mystery today.

The authorities believe if they can lay hands on the man who wrote from New York yesterday, giving local authorities details of Ward's relations with Peters and other navy men, they will uncover the secret the millionaire baker's son shot to conceal.

Sentiment has swung sharply against Ward, who was forced to resign his post as police commissioner yesterday.

Dist. Atty. Weebs said today the charge against the baker's son was not manslaughter, but a "killing."

Coroner Fitzgerald said only his inquest could determine whether this charge would be changed to murder in the first or second degree or justifiable homicide.

Sheriff Werner, hitherto as silent as Ward himself on the case, agreed today to open discussions with newspaper men.

"There are several questions which must be answered before I can consider my investigation of Ward's story at an end," Werner said. "I want to know why, if Ward emptied his automobile, only one shell was found near Peters' body. I want to know if Peters really had a gun and what became of it."

FEW CIVIL WAR VETERANS TO DO THEIR PART TUESDAY.

There are but eight or ten Civil War veterans in Maysville now who can get about but these few are planning to do their part toward decorating the graves of their old comrades on next Tuesday—Decoration Day. COAL PRICES UP.

Washington, May 25. — All bituminous coal prices at mines throughout the country have jumped since the nationwide strike began April 1, despite warning of Secretary Herbert C. Hoover that there is not justification for an increase.

Statistics of the National Coal Association, printed in its magazine here today, showed prices of most grades of coal have been increased at the mines from 25 to 50 per cent. Prices of a few grades have been doubled.

LIQUOR IN BRACKEN.

The Marshal of Augusta arrested Virgil Bravard, Alfred Meyers, Ursel Bone and Arle Bravard on Tuesday at that place for being intoxicated and disorderly conduct. When asked where they secured their booze, they said Ralph Switzer sold it to them. Deputy Sheriff Kline O'Neill then arrested Switzer for selling intoxicating liquor and took him to Brooksville Tuesday afternoon to appear before Judge Dodson. He waived the examining trial and was held over to the grand jury. He gave bond in the sum of \$1,000 and was released.

The Thrifty Citizen Who Caught the Plugged Nickel

MR. BROWN had swallowed his lunch and had paid his bill. Cautiously he counted his change. "Here!" he said, sharply, "Take back this plugged nickel and give me a good one!"

Mr. Brown walked proudly out. They couldn't fool old Brown.

But old Brown had fooled himself.

Brown's day was heavy and dull. He lacked "pep." There was a mid-afternoon drowsy spell when he needed to be awake—the direct and natural result of heavy, starchy breakfasts and lunches, taken on faith and without question as to value—just because the food looked and tasted like food.

Thousands of shrewd business men who count their change, take their food for granted.

That's what builds up the sanitarium business, and puts the tired "all-done" feeling into the mid-afternoon of a business day.

Grape-Nuts is a scientific food whose delicious, appetizing flavor and crispness are an introduction to well-balanced nourishment—a nourishment easily and quickly assimilated, so that body, brain and nerves are well fed and kept free of the stored-up poisons left by so many ill-selected foods.

Served with cream or good milk, Grape-Nuts is a complete food, always ready, always a delight to the taste—and always a safe selection for the man who thinks his stomach is entitled to some of the same protection he gives to his pocket.
